Time To Live

*The band was tremendous! More than one guest said, "We knew when they opened with 'Pride and Joy' it was going to be a great night of music." All I really, really wanted at the reception was to dance, and I had a wonderful time doing it—as did very many of my friends and family! It was tremendous and wonderful and the party would not have been the same without your charisma and wonderful music.*

*Thank you so very much!*
